L. 9 NO. 34 — Lancaster Farming, Saturday, July 25, 1964 — $2 Per Year

ichard Groff "Does It gain" At Plowing Match

was a mighty nice furrow Richard Groff, Lititz R3, down in his 21000 square contest plot to become the second year in a row Lancaster County Plowing mpion

ichard, by scoring a grand l of 524 points, captured plow trophy, will keep the lenge trophy for another and landed the right to esent Lancaster County in State Contest on July 29 he Daniel W Rumler Farm, McCord in Franklin nty

don't think the ground as hard as last year," said new champ while waiting the judges' final decision was the fourth time Groff "put his hand to the plow," he annual plowing struggle.

Everett Kreider, Quarryville R1, the other contestant go into Thursday's competi with his name on the e trophy, made it a battle champions by "Moleboard- his way into second place a 513 point finish. Kreid- was the top plowman in 2

nly a wheat stubble behind making a fine showing in Lancaster County Soil servation District sponsor- contest while competing for first time was Marlin Zim- rman, East Earl R1. He red 5.2 to miss a tie for ond by only one point.

Other top contenders were Merle Groff, Lancaster R4, 505 points; Wilmer McDonald, Lancaster R2, 504 points, Forney Longenecker, Lititz R3, 492 points

The Farm Agent from Berks County, James F Haldeman, local dairy farmer John J Herr, Mount Joy R1, and Henry Mattox from the Adams County Soil Conservation, served as judges, and Elmer V Good, chairman, presented the awards

Potato Growers Urged To Spray

With all-day rains over most of Pennsylvania July 8 and again July 12-13, the Extension Service suggested that potato growers commence fungicide application to protect against the possibility of late blight development No late blight has been found in Pennsylvania, but weather conditions have reached the point where any blight present in cull piles or other sources could start rapid spread, the Service stated.

Apply one of the maneb-type materials (Manzate, M-22, Manzate D or M-45) at 2 pounds per acre each 7 days Increase to 2½ pounds each 5 days if blight starts in nearby fields If the drought resumes —stop fungicidal sprays.

Cattle On Feed Drops 16 Percent

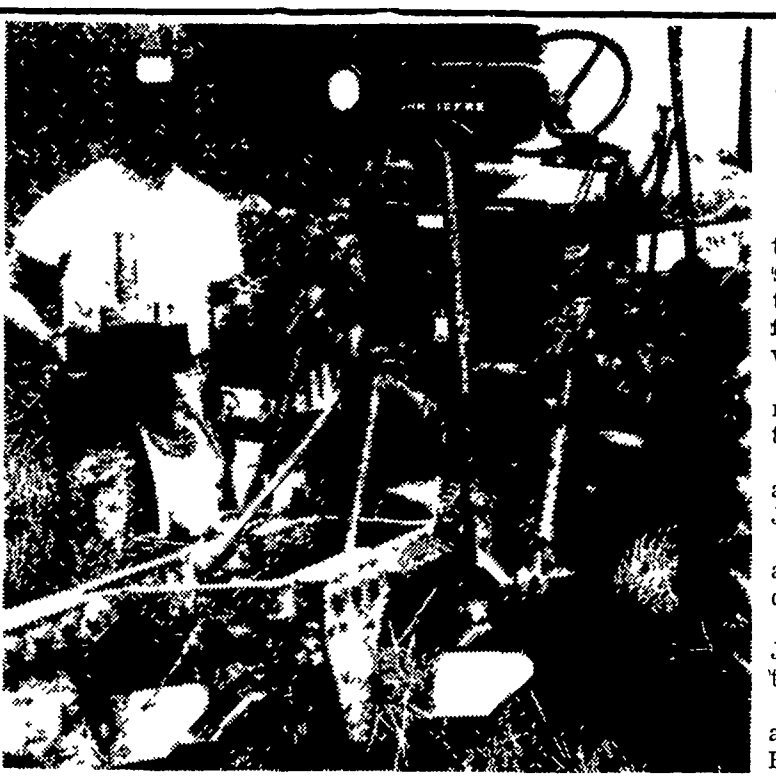
HARRISBURG — The number of cattle and calves being fed for slaughter in the Keystone State declined sharply during the April-June quarter, according to the Penna. Crop Reporting Service.

Only 41,000 head were on grain feed July 1, the Service reported—8,000 head, or 16 per cent less than a year earlier. The decline followed the national trend, but at a sharper pace. The U S. had 3 per cent less cattle on feed July 1 than a year earlier.

The Crop Reporting Service attributed Pennsylvania's decline to heavier-than-usual marketing of fat cattle and a slow market for feeder animals

Only 11,000 head of feeder cattle were bought during the quarter, 39 per cent less than in the comparable three months of 1963 On the other hand, 39,000 head of fat cattle were marketed. 11 per cent more than a year earlier

Livestock men anticipate marketing 26,000 head during the coming quarter — 4,000 less than in the same period last year, according to the Crop Reporting Service.



WINS COUNTY PLOWING TITLE: Richard Groff, Lititz R3, proudly displays his awards after winning his second leg on the Lancaster County plowing contest challenge trophy.

Chick Hatch Continues Down

Hatcheries in the Keystone State hatched 6.9 million chicks during May according to the Pennsylvania Crop Reporting Service. This was a seasonal drop putting hatchings 12 per cent below May and 1 per cent below June a year ago. The broiler-type chick hatch (3 9 million) was about the same as May while the egg-type hatch (3 0 million) was down 23 per cent.

There were 255,527,000 chicks produced by hatcheries in the U S in June 1964, 3 per cent more than in June 1963 Broiler chicks hatched totaled 208,-498,000 slightly above the production of 207,635,000 in June last year During the first 6 months of 1964 there were 1,215,109,000 broiler chicks hatched, an increase of 2 per

County Fair Dates Listed

Pennsylvania's fair season. starting with the Kimberton Fair, July 15-25 at Kimberton, Chester county, will comprise 95 events, according to a listing made by the State Department of Agriculture.

These will be spread over a 6-month period extending through the 1965 Pennsylvania State Farm Show, Jan 11-15 in Harrisburg

State Agriculture Secretary Leland H Bull said three events to be held in the Farm Show Building will open with the new Pennsylvania All-American Dairy Show, an open international event It is scheduled for Sept. 14-17 and will embrace the annual Pennsylvania Junior Dairy Show

Local fair dates are Sept 15-

(Continued on Page 7)

Eminent Domain Bill Meeting On Wed.

Hollis Hatfield, executive secretary of the Pennsylvania Farmers Association, will explain provisions of the state's newly-enacted eminent domain bill at a public meeting on the farm of Reed Wissler, Ephrata R2, on July 29 at 8 p.m.

The meeting is sponsored by the Lancaster County Farmers Association.

Local 4-H Teams Win District Demonstrations

Four 4-H demonstration teams won district championships this week, qualifying them for berths in the state finals Aug 11-12 at Pennsylvania State University

Winning district titles during demonstration judging at the Allentown Fair Grounds

Nancy Frey, Marietta R1, and Dalas Wolgemuth, Mount Joy R1, beef demonstration

Nancy Stoltzfus, Ronks R1, and Nancy Bollinger, Lititz R4, dairy demonstration

Richard Buckwalter and James Hershey, both Lititz R3, tractor demonstration

Evelyn Groff, Gordonville R1, and Karen Mellinger, Bird-in-Hand, baking demonstration

The beef, dairy and baking events won blue ribbons in the 13-county competition, with the Buckwalter-Hershey demonstration picking up a red merit award Scoring was based on the Danish judging system

In other county demonstration placings, judges awarded four red ribbons and two white awards. Winning red tags were:

Gerald Wagner, Quarryville R2, and Kathie Gabriel, Quarryville, horse demonstration.

Melvin Breneman, Strasburg R1, and Linda Young,

(Other Photo on Page 7)
(Continued on Page 7)

James Hershey, (left) and Richard Buckwalter, both of R. D. 3 Lititz, were tractor demonstration winners at the Southeast District Demonstration Day at Allentown .

Breeders Service Open House

Atlantic Breeders Cooperative, Rt 230 Bypass. Lancaster, will hold a two day open house today and Sunday, July 25 and 26, between 1 and 4 p m.

Included will be guided tours of the bull barns, laboratory and offices Refreshments will be served

Weather Forecast

Temperatures during the next five days are expected to average 2 to 5 degrees above the normal range of 65 at night to 87 in the afternoon. Warm weather is expected over the weekend and cooler in the northern area later in the period. Precipitation may total 0.2 to 0.5 inch occurring as scattered showers.

"THE OLD DEPENDABLE" — SECOND TO NONE

Weekly Broiler Report

Pennsylvania hatcherymen placed 774,000 chicks for commercial broiler production during the week ending July 18, according to the Pennsylvania Crop Reporting Service. This was an increase of 16 per cent over the previous week and 5 per cent over last year. The 10-week total was up 5 per cent from the comparable period a year ago. Settings, totaling 1,170,000 eggs for commercial broiler production, decreased 3 per cent from a week earlier and 6 per cent from last year. The 3 week total was 1 per cent above a year earlier. Inshipments of broiler-type chicks for the past 10-weeks totaled 785,000 or 76 per cent above last year while outshipments of 1,433,000 were down 26 per cent.

Placements in the major producing states were down 2 per cent from a week earlier, but remained 5 per cent above a year ago. The 10 week total was up 1 per cent from last year. Settings were down 2 per cent from the previous week while remaining 4 per cent above a year earlier. The 3 week total was 4 per cent above last year.

ASC Committee Nominations Being Accepted

Farmers are being reminded that slates of nominees for membership on ASC community committees now are being established at the ASCS County Office. And a special effort is being made to secure the greatest possible participation of eligible voters in the election.

Fred G. Seldomridge, chairman, Agricultural Stabilization and Conservation Lancaster County Committee, said today that farmers who are eligible to vote in the committee elections also have the right to nominate as candidates for committee membership any farmer who is eligible and willing to serve. Such petitions, signed by six or more eligible voters, may be filed at the County Office any time before August 12, 1964. Additional nominations may be made by the incombent ASC community and county committees, if

(Continued on Page 12)

● Delmarva

Live broiler prices in Delmarva advanced slightly. Demand good for moderate auction offerings. Prices on high side of range for extended pickup dates. Ready to cook demand has increased to a fair to good position. Several retail promotions stimulate movement.

Delivered prices continue down trend ¼ to ½ cents lower.

Estimated slaughter for the weekend by eastern shore processors was 866,000 head compared to 807,000 head last weekend.

Prices ranged 14 6 to 15 5 at farms on reported purchases of 100,300 head including 588,-500 head offered and sold at

From Where We Stand . . .

Figures Don't Tell The Story!

At a recent press conference Secretary of Agriculture Orville L. Freeman said that we won't tell the farmer that the last four years have never been better and the next four years will be better yet.

But he said he was proud that gross farm income over the last three years had been higher. He gave credit to this increase in farm income to the change in farm programs made by the present administration

The reason for this public statement was because, "Some people want the farmer to believe he was better off in 1959." And he goes on to give figures to prove that the 1963 net farm income averaged $677 more in 1963 than in 1959.

For those who must balance the farm account book we believe this comes as quite a shock. With the sagging wheat, milk, egg and beef prices we can't help wonder where the good Secretary got his figures. All to often numbers and the actual situation just don't seem to agree.

At least that's how it looks from where we stand.

★ ★ ★ ★

Ay! Ay! Ay!

Yes sir, we heard it also. With our own ears. From the man who is to buy the stuff.

We're talking about wheat. It's only $1.35 a bushel minus garlic, hauling and drying. You might even end up with $1.20. Ay! Ay! Ay! It's nice redcoat too.

What? You say the price of bread is coming down? I'm sorry Miss We didn't hear anything about that!

★ ★ ★ ★

Milk Is A Real Bargain!

Americans drank more milk last year. For the first time since 1956, per capita sales of fluid whole milk increased. Sales rose from 125 quarts per person in 1962 to 126 quarts during 1963.

The reversal of this downward sales trend reflects the results that can be achieved through industry-wide efforts in nutrition education and research. Long-range promotion programs are also credited with helping to set the new trend.

Fluid milk was not the only dairy food to register an increase in per capita sales last year. Consumption of ice cream and other frozen dairy foods climbed to a record level of 21 1 quarts per person in 1963 Present consumption rates of ice cream are more than double the per capita rates that existed less than 25 years ago.

Cheese consumption also set a new record last year. Per capita consumption of cheese has been rising almost continuously over the last two decades. During 1963, consumption rose to an all-time high of 9.4 pounds per person. In fact, since the end of World War II, per capita consumption of cheese has risen by more than one-third.

Sales of fluid nonfat and low fat milk totaled 13.5 quarts per person last year, representing the highest level of sales ever recorded.

Per capita consumption of several dairy foods, such as nonfat dry milk, cottage cheese, and condensed milk remained fairly constant between 1962 and 1963. However, all these foods are being consumed at rates considerably higher than a decade ago. For a few dairy foods — butter and fluid cream, in particular — per capita levels of consumption continued to drift downward.

On the production side, America's dairy farmers set two new records last year. The quantity of milk produced per cow was at an all time high of 7,545 pounds. Also, the number of cows in the nation's dairy herd was at an all time low of 16.5 million head.

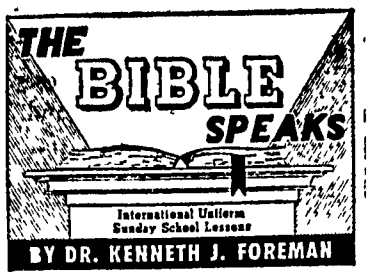
These developments took place while farmers produced less milk than during any of the last three years. Production for the year totaled slightly less than 125 billion or about one billion pounds less than in 1962.

The farm price of milk averaged $4.12 per hundredweight last year, representing a slight increase over the $4.10 price for 1962. Cash receipts for dairy farmers totaled 4.8 billion dollars in 1963, practically unchanged from 1962 Thus on balance it appears that the slight increase in the farm price last year tended to offset the decline in production so that cash receipts to farmers from marketing of milk remained about the same as in 1962.

Retail prices during 1963 of many dairy foods moved downward despite an increase in the price index for all food. The all food index — which measures the price movement of all foods including dairy, meat, fruits and vegetables, breads and cereals — rose more than one per cent between 1962 and 1963. But retail prices of fluid milk, ice cream, and butter, for example, were lower is 1963 than during 1962. The retail price of cheese on the other hand, was 2 of a cent higher per pound last year than in 1962.

As for the price of milk, when this is related to nutritional values, milk is a bargain. The real price of a product, in contrast to the money price, indicates the amount of labor required to earn wages equal in value to the retail price. The real price reflects changes in both product prices and wage rates and is a better index of the real cost of a product than is the money.

At least that's how it looks from where we stand.



Leaders Need Help

Lesson for July 26, 1964

Bible Material: Exodus 15:22 through 18 27.
Devotional Reading: Psalm 20:1-9.

PRIMA DONNAS are hard to get along with. It's hard to be in the same house with one, hard to be on a committee or a team with one. A real original prima donna is a singer (the name means First Lady) who does soprano parts at the opera. They are notoriously temperamental. They make it rather hard for the other members of the cast. They don't like to share a scene, they want to dominate it. Now prima donnas in ordinary life are like that. They have plenty of talent, perhaps even genius. But they do not work well on a team. They are star performers and they know it. But there is a difference between a superior performer and a performer who can't forget that he is superior.

Dr. Foreman

Leaders Need help

There is a difference between prima donnas and leaders. The p.d. is admired, but that's the end of it. The boys in the school yard may admire a boy who can stand on one hand. But if they don't all try to do the same, he's not a leader. A leader is followed. Now some of the greatest mistakes in history have occurred when leaders have tried to be prima donnas, or vice versa. Hitler was a first-class prima donna; but he called himself a Leader. He seldom would listen to advice.

God's leaders

You might think that God's leaders would not need help, but they do. Don't they have the help of God and isn't that enough? No; God's providence calls on other men to rally behind leaders. Not even God's chosen leaders can lead without help of any kind. This is true of your local minister; where is the church that can get along without a committee or board or council or session or vestry or some group of leaders from the congregation to help the minister? It was true of Moses too. There was a man of God if ever there was one: immortal in human memory as one of the greatest leaders in all history . . . yet even he was tempted to play prima donna. Because he could do anything better than most others, he tried to do everything. Because he was a good judge, none better, he made the attempt to judge everything. Now every man has his limitations. No man, for example, can do more than he has time to work in. Even if his powers were unlimited, which they are not, he cannot do in ten hours what calls for twenty hours to do it right. Ministers have been known to suffer nervous breakdowns because they thought they did not need help; and Moses was headed for the same kind of trouble, till old Jethro gave him the advice which saved the situation.

The humility of a leader

Moses was one of the best educated men of his time, and immensely superior to the other Israelites. Jethro, his old father-in-law, was on the other hand, one of the most ignorant of men. He had never lived, so far as we know, outside that rocky wilderness. When he ventured to give Moses advice on how to handle the crowds that came before him from dawn to dark, demanding his decision on innumerable problems large and small, Moses did not brush him off. Moses listened; one of the humblest acts recorded of any leader in history. It was a humble thing old Jethro advised him to do, too. Appointing subordinate judges to help solve the people's problems would be, in a way, governing by committee, and we can imagine Moses had no great liking for that. But the mere admission of others (none in his class, either) to the administration of national affairs would be admitting he could not do it all. Well, even the greatest have to admit it: they are not superhuman, and though they are God's men, there are no more hours in a day for them than for any one else. The great man may accept help grudgingly, but God's leaders accept gratefully. They take helpers as God's gift and not as insult.

GO TO CHURCH SUNDAY

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

To Be Alert For Potato Insects

The use of systemic insecticides at planting time have done a very good job of controlling insects in most potato fields, however, authorities inform us that these may lose their control in late July or early August. Growers are urged to be on the alert for aphids, leaf hoppers, and flea beetles

To Be Patient For Forage Insecticides

There is plenty of activity among entomologists who are trying to figure out a good spray control program for legumes We are getting questions about the control recommendations for this fall and next spring As yet, we do not have the answers now any recommendations to make. We do know that dieldrin and heptachlor will not be recommended, also, we are informed that lindane will not be included in the spray program for alfalfa weevil or spittlebugs Custom sprayers and farmers are urged to be patient, this is not an easy problem to solve.

To Consider Trench Silo

The corn crop is well on its way on many farms and tons of good silage are in the making. We call attention to the fact that more feed value will be utilized from an acre of corn by making it into silage when in the full dent stage than by any other harvesting method. On farms where there is not any silo, or on farms where extra storage space is needed for silage and funds are not available for an upright silo, we suggest that a horizontal silo be considered. Under good management these kind of storage facilities are a good investment and will provide good quality silage. Information and literature are available

To Make Plans for Quicker Tobacco Curing

It's a little early in the season to definitely predict a fast-growing, open-grained tobacco crop; but at this time it appears that many crops might qualify for these requirements Now the problem is to get it cured properly; in many cases the sap remains in the leaves too long after hanging in the sheds. Supplemental heat could be the very best answer to this problem; growers are urged to consider some artificial means of removing this moisture more quickly.

Society 12 Holds Poolside Party

Society of Farm Women 12 held a poolside party at the Owens pool, Mt. Nebo, Tuesday. A covered dish supper for husbands and children of members was served. Mrs. Howard Jones was hostess.

At a business meeting, the society voted a donation to County Society's project for the Child Development Center and a contribution to "Meals for Millions."

The groups next meeting will be Sept. 19 at the home of Mrs. Henry Elson, Conestoga R2.

LANC. CO. F.F.A.

By Dale Hershey

A special meeting of Lancaster County F F A Chapter was held July 21 at Safe Harbor, for all officers and assistants of the County Chapters.

The work shop meeting was opened with the regular opening exercises. Donald Ranck reviewed the duties of the various officers.

Stanley Graver reported on how the County Chapter is financed and the money is used. The group was divided by schools, with two schools in a group, and the groups discussed and exchanged ideas on their chapters' program of work. This was followed by a doggie roast.

Cooperative To Hold Meet Tues.

A special milk meeting for all area dairy farmers will be held at 8:15 p.m. Tuesday, July 28 in the Hostetter's Hall, Mount Joy.

Current problems presently facing dairy farmers and recent important developments in the dairy industry will be discussed by dairy experts. Questions also will be answered.

The meeting is under the sponsorship of the Mount Joy Farmers Cooperative and the Metropolitan Cooperative Milk Producers Bargaining Agency.

Chairman of the meeting will be Abner Risser, Agency treasurer and a District Director.

Speakers will include Arthur Little, Agency economist and Thomas Tedesco, fieldman

Risser urges all dairymen, regardless of cooperative affiliation, to attend "this important meeting"

The farm labor force for the survey week June 21-27 was 4 per cent less than a year earlier and the lowest on record

John Frey

John Frey To Attend Institute

John Frey, son of Mrs. Anna Frey, Quarryville, Pa., was one of four young people chosen to represent Pennsylvania at the annual meeting of the American Institute of Cooperation being held this year, Aug. 9-12, at the Michigan State University, East Lansing, Mich.

The youth were selected from 130 outstanding rural young people attending the fourth Summer Institute of the Pennsylvania Association of Farmer Cooperatives, held at Slippery Rock State College, Slippery Rock, Pa, July 12-16.

Others selected from the Institute to attend the AIC annual meeting are Carter P. Bard, son of Mr and Mrs. Frank Bard, Warfordsburg, Pa.; Jean Duncan daughter of Mr. and Mrs Elwood C. Duncan, Landisburg, Pa; and Harry Dale Gill, Jr, son of Mr. and Mrs Harry D Gill, Sr., 223 W Logan Street, State College, Pa

These young people were selected on the basis of their participation at the Institute, their knowledge of the cooperative way of doing business as shown in their grade on a quiz given at the Institute, and their activities in their county.

"HOW 4-H CONTRIBUTES TO GOOD CITIZENSHIP"
by Linda Young

Have you ever asked your self these questions? What kind of a citizen am I? How can I become a better citizen? First we must use what we have. One way to discover our abilities is through many experiences in 4-H By being a member of any 4-H club, we not only gain information about our projects but many other numerous factors contributing to good citizenship.

In order to have a better understanding of what we are doing, we must allow ourselves to think clearly. Our mental attitude plays a very important part in what we accomplish To be a good 4-H member it takes an attitude that we want to accomplish something no matter what may occur. When we think clearly, we can accept criticism as being constructive instead of destructive. Clearer thinking contributes to good health. When we have good health, we feel like doing our best and trying to make things better.

In order to be a good citizen we must be loyal. If we want others to be loyal to us we must be loyal to them. Any officer who cannot attend a meeting should show his loyalty by contacting a leader when he cannot be present. Members are aware of the officers who are not loyal to their club. Even a game leader can prove how loyal he is to the club by having games planned for each meeting. Just this past month a few first and second year girls proved their loyalty by giving an amount of $20 instead of the regular $10 because they could not attend the next meeting due to a week of camp. These girls are learning to become better citizens because they are interested in their club and plan for the future. We owe loyalty not only to those around us but to our country. Since our government has set up laws to follow, we must show loyalty by obeying these laws and persuading others to obey them. The more we study about our government the more it is revealed to us what a wonderful government we have. When we use our loyalty in service to others, we become better citizens.

The information that we gain from our projects helps us in our future. A wonderful way to keep this information is to share it with others For what we do not share, we cannot keep We can do this by being a Junior Leader or an

Clearinghouse for Hay?

Because of severe drought conditions throughout the Northeast, many Eastern dairy farmers have had little or no hay to store this summer. Prognosis. a lean winter feed.

To deal with this problem, Eastern Milk Producers has volunteered its services as a 'clearinghouse" for buyers and sellers of hay . . . to help move hay from areas of plentiful supply to those in critical need Farmers with hay to sell are urged to fill out and send us the coupon below, those in hard-hit drought areas should let us know their needs. Eastern will then exchange this information . . . without charge, of course.

This action stems from a recent directors' meeting at which Eastern adopted a 4-point program to "preserve the family-size farm by assuring the dairy farmer a fair return for his production." Eastern officials then carried this program directly to Secretary of Agriculture Orville Freeman in Washington for first-hand discussion.

From individual farm problems to representation on all levels of government, Eastern speaks out . . . reaches out with a strong helping hand for today's dairy farmer For membership information or "help with hay," write direct to Eastern Milk Producers Cooperative Association, Kinne Road, Syracuse, N.Y. 13214.

Fresh Fruits Of Summer

By Mrs. Richard C. Spence

SPENCE

Now, when fresh fruits are in such abundance, is the time to try all those delicious desserts which you've been putting off till the fruits are "in season". Blueberries will be in till August — their tart flavor adds so much to a dessert Peaches and pears will be in season soon as will the new apple crop. Fresh pineapples can be had most of the summer. Use these fruits often when they are cheapest; use them in a variety of ways and your family will never tire of them.

A "peachy-keen" dessert is Peach-Pear Pie A La Mode It's made with fresh peaches and pears, which blend their sweet, sun-ripened flavors into one delectable filling Top it off with a scoop of peach ice cream to accent that fruity goodness.

PEACH-PEAR PIE

Pastry for double crust 9-inch pie
2 cups peeled and sliced fresh peaches
2 cups peeled and sliced fresh pears
1½ tablespoons tapioca
¾ cup sugar
2 tablespoons butter
Peach ice cream

Prepare pastry and line pie plate. In a mixing bowl toss together sliced peaches, sliced pears, tapioca and sugar, pour into pastry lined pie plate Dot with butter and cover with top crust Form a high rim to retain juices during baking Bake 50-60 minutes in a 375 degree oven. Serve slightly warm and topped with peach ice cream.

Another delightful dessert is Blueberry Funny Cake. A tasty cake is baked right into a pie, with built-in blueberry sauce to give it zest.

BLUEBERRY FUNNY CAKE

1 unbaked pie shell, 9-in.

BLUEBERRY SAUCE:
2 cups fresh blueberries
1 cup sugar
1 tablespoon water
1 tablespoon lemon juice

CAKE:
¼ cup (½ stick) butter
¾ cup sugar
1 egg
1 teaspoon vanilla
1¼ cups sifted cake flour
1 teaspoon baking powder
½ teaspoon salt
½ cup milk

In preparing pie shell form a high standing rim to retain juice when baking. To prepare sauce: Place blueberries in saucepan and add sugar, water and lemon juice. Stirring gently, heat mixture until it is simmering and sugar is completely dissolved. Cool to lukewarm while preparing cake batter.

To prepare cake: In a mixing bowl cream together butter and sugar until light and fluffy. Add egg and vanilla, mixing well. Sift together flour, baking powder and salt, add to creamed mixture alternately with milk, beginning and ending with dry ingredients Pour batter into unbaked pie shell. Gently pour lukewarm blueberry sauce over the top. Bake 35-40 minutes or until cake tests done in a 375 degree oven. To serve, cut in wedges and top with scoops of vanilla ice cream.

For The Farm Wife

(Continued From Page 8)

One of the most delectable sserts you can serve is also e of the easiest. Try Pine-ple-Bananas a la Foster, pre-ed at the dinner table in electric frypan or chafing sh.

PINEAPPLE-BANANAS A LA FOSTER

½ cup (1 stick) butter
½ cup firmly packed brown sugar
Dash of cinnamon
4 slices fresh pineapple, cored
2 large bananas, quartered.
½-1 teaspoon rum extract
4 large scoops vanilla ice cream

In frypan or chafing dish melt butter. Add brown sugar and cinnamon and stir until mixture begins to get syrupy. Add pineapple and bananas, basting in syrup and turning several times, or until fruit is well glazed and syrup has thickened. Add rum extract. To serve, place a pineapple slice on each plate, then top with a scoop of ice cream and two quarters of banana Spoon over remaining syrup.

This magnificent fruit tart will add glamor to any menu. A wonderful combination of a coffee flavored crust made with vanilla wafer crumbs, delicately flavored cream filling and fresh fruit topped with a red currant glaze. Very easy to prepare and a perfect dessert for hot summer days.

FRENCH FRUIT TART

39 vanilla wafers, finely rolled (about 1⅔ cups)
¼ cup butter or margarine, melted
1 tablespoon instant coffee
5 egg yolks
¾ cup sugar
3 tablespoons flour
2 cups milk
1 teaspoon vanilla extract
Fresh peaches, pared and sliced.
Fresh strawberries, hulled and washed.
Fresh blueberries
½ cup red currant jelly

Combine vanilla wafer crumbs and melted butter or margarine into which the instant coffee has been stirred. Pour crumb mixture into a 9-inch pie plate pressing crumbs firmly against bottom and sides using an 8-inch pie plate Bake in a moderate oven (375 degrees) 8 minutes. Cool.

Beat egg yolks and sugar until thick and lemon colored. Slowly beat in flour until well blended Scald milk with vanilla and stir into egg mixture Return custard to saucepan and cook over medium heat, stirring constantly until custard thickens and boils. Boil for 1 minute. Cool in a bowl, covering the surface of the custard with wax paper to prevent a skin forming. Spoon into pie shell. Top custard with the fresh fruit in any pattern you wish Melt red currant jelly in a saucepan and brush over the fruit to glaze. Refrigerate until ready to serve. Makes 8 servings.

Some Things To Know About Sandwiches

The sandwich is a best seller in America — you can find the sandwich anywhere food is prepared and eaten, anytime you care to look for it, and in any flavor in the cookbook.

The sandwich hobnobs with the elite, and rubs shoulders with other foods in lunch boxes, picnic baskets, and on breakfast, lunch, and dinner tables across the country.

Americans eat more than a hundred million sandwiches every day throughout the year One reason for this popularity is that the sandwich is one of the most convenient and easiest foods to prepare. The growing trend to casual living also contributes to the popularity of the sandwich.

The sandwich is economical to prepare and serve It's a versatile food item with endless variations Because the sandwich can take on so many forms, sizes, shapes, and flavors, it has topnotch taste, eye and nutrition appeal.

Helpful Hints for Sandwich Making

For fresh-tasting, nonsoggy sandwiches, spread softened—but not melted—butter or margarine evenly right to the edge of each slice of bread. When you do this, the butter or margarine keeps the filling from soaking through the bread.

When taking sandwiches to be eaten while traveling in the car, wrap small finger sandwiches in plastic wrap or aluminum foil The small sandwiches are easier for everyone to handle—children and adults alike. If you tuck a paper napkin around each wrapped sandwich, the napkin will be handy when needed.

Explore the variety of breads available for sandwiches. You'll find Italian and French breads, flavor-rich ryes, fruit breads, cracked wheat bread, and plain or seeded hard or soft rolls offer a welcome change for the daily sandwich eater.

E-TOWN DONEGAL 4-H CLUB

The Elizabethtown-Donegal 4-H community club met recently at the home of Fay and Larry Brubaker, Elizabethtown R3. President Brubaker was in charge of the meeting. The members enjoyed a baseball game followed by a report of 4-H club congress by the president. Nancy Frey, song leader, led the group in singing several songs from Congress. The club will meet with the Lincoln community club on August 18. Special guest of the evening was Bob Malick of WGAL-TV.

The president appointed Sue Alleman, Fay Brubaker and Donna Hosler to the program committee for the next meeting which will be held at the home of Bill Hackman, Elizabethtown, R3.

eeches

tinued from Page 6)

for a club or the Council. As a Junior we can develop skills ilities in working suc- ly with others. By sett- r goals high and striv- reach them, we can ac- sh a great deal. To uccess in life depends on how we go about and working with other There must be a desire hearts to serve others. h these small experi- in earlier years, we erform larger services we are adults. Being to others helps to hat selfish feeling inside It gives us the feeling e can do some good in this world and better someone's life. Simply by helping a younger person learn an easy skill we can gain respect from this member and also have the pleasure of watching him progress. It is a great responsibility for us to be a good example of what 4-H ers's can achieve. There is always something for us to do as a club or as an individual. Making simple favors for the sick and less fortunate is greatly appreciated. In a community there is always some volunteer work to be done or special programs to be sponsored.

By participating in these 4-H activities with the proper attitude, we can definitely prove how 4-H contributes to good citizenship. As a result we can acquire more knowledge of knowing how and new friends. From each person we meet, we can learn something Since these activities in 4-H will benefit us only with the proper attitude we must pledge our heads to clearer thinking, our hearts to greater loyalty, our hands to larger service, and our health to better living for our clubs, our communities, and our country.

"DEDICATED YOUTH"
by Melvin Breneman

Today's world needs dedicated youth! There are thousands of young people with no goal in life or even anything to live for. They spend their time doing things from which they do not benefit. In the other hand a large number of youth are doing many valuable and helpful things and they are receiving state wide and even nationwide attention for what they've done. However, all of us will not receive that recognition and yet we can all be dedicated to what we are doing. "Dedicated", you say, "Wonder what he means by that term?" Webster says, to set apart to a definite use or service. I firmly believe that all of us here today are just that. Dedicated, in that we are and will be doing our best in leading the 4-H Clubs throughout the county and state.

An office manager came into his office one morning and discovered a very complicated machine wasn't functioning properly. So he called in an expert mechanic to fix it. The mechanic came and all he did was turn one screw. Several weeks later he received a bill for $160. The boss was quite unhappy and requested an itemized bill He received one as follows. to turn the screw, $2 50, for knowing how far to turn it, $157.50. This illustrates how important every little part in a machine is and the same thing applies in every 4-H Club. It takes every member in the club to do his or her part before it can function properly.

As each year comes and goes the problems facing each club will certainly vary. Each passing year should see this organization growing and doing more and more for the benefit of agriculture if the youth in the organization are truly dedicated to their job.

Have you ever heard of crampons? A crampon is a "metal frame with spikes, fitting the sole of the boot, for use on hard snow or ice" If you stop to think for a moment, you can well understand the value of crampons to a mountain climber They mean the difference between progress and sliding back, if not falling May we leaders be so dedicated to our job that we will be to those youth who are looking to us for leadership, like crampons are to the mountain climber. May we help them to climb better and higher and not let them slip back or fall

"We shall so live and labor in our time that what came to us as seed may go to the next generation as blossom, and that what came to us as blossom may go to them as fruit This is what is meant by progress These words were uttered years and years ago by Henry Ward Beecher, but they are still good for us today

To have an organization that is looked up to, the offic-

● ASC Committee

(Continued from Page 3)

these are required or determined desirable.

"We want the best men available to serve on our ASC committees," Chairman Seldomridge declared, "because the committee system is the backbone of farm programs—those dealing with conservation of soil and water, as well as the price support activities in various commodities. In the last couple of years, the farmer-elected committee system unique in the history of agriculture, had come under considerable scrutiny As a result of intensive study by official groups, the system is not only being retained, but has been greatly strengthened"

Here in the county, Mr Seldomridge points out, the impact of ASC committee-administered programs on the welfare of individual farmers, and collectively on the life of the county, is considerable. For instance, last year 14,580 acres of farmland were improved under the Agricultural Conservation Program cost-sharing arrangement. This cost $192,450, with about half coming from the participating farmer, the balance from ACP.

"So you can see that ASC committeemen in the county are in effect board members of a big 'business,' the Chairman continued "This points up the urgency in getting to vote the greatest possible percentage of farmers in community elections, so that the committeemen they select will more nearly represent the thinking of a majority of farmers"

A "farmer eligible to vote in the committee elections," according to the Chairman, is generally a farmer who is taking part or is eligible to take part in one or more of the national farm programs which the ASC committee helps to administer. A person eligible to hold office as a committeeman—among other qualifications—is a local resident who is eligible to vote in the election

The election of ASC community committees throughout Lancaster County will be held by mail ballot.

Three community committeemen and two alternates will be chosen for each Committee. The chairman, vice chairman, and regular member of the elected ASC community committee will also serve respectively as delegate, alternate delegate, and second alternate delegate to the county convention to be held soon thereafter, where the ASC county committee will be chosen.

"Cigar ash in the tractor gas tank . And you?"

● Speeches

(continued from page 11)

ers and leaders must be of such character that they are looked up to. If we are lazy and shiftless or think that the job is too hard the organization will deteriorate. You know most of the shadows that cross our pathway in life are caused by standing in our own light. And so may we, with God's help, keep our organization moving ever upward and onward

No doubt you've heard of the young man who was asked, "Hey Joe, what model is your car?" Replied honest Joe, "It's not a model; it's a horrible example" A young person does not have to be beautiful to be a model, for this kind of modeling takes beautiful lives. "Let no man ... thy youth," Paul ... Timothy. 'Are you ... be a good example? ... like a book, can be ... others. May this little ... the prayer and aim of ... us.

I thank thee, Father, ... youth,
And for Thy guiding ... truth,
As a believer may I ...
My faith and love to ... know
Help me dear Father ... speak,
May every word be ... meek;
In spirit, faith and ...
May I a good example ...

Dedicated? Yes! Dedicated ... God, Country and YOU!

...iety 3 Holds ...mily Picnic

...iety of Farm Women 3 held their annual family picnic in Walters Meadow near Hopeland. Chicken barbecue was the main dinner dish, served with covered dishes.

Following a short business session the group enjoyed conversation and recreation.

Wayne Elser, eighty-one, and Bradley Reed Edwards, seven months, were honored as the oldest and youngest guests present.

Next meeting of the group will be held Saturday, August 15 at the home of Mrs. William Stober, Adamstown.

Silver Age Honored

Recently members of the program committee entertained the silver age ladies of the Society with a surprise trip to Roadside America. The group ate at Haag's Restaurant, Shartlesville.

Attending were Mrs. Eva Becker, Mrs. Samuel Mohler, Miss Mary Royer, Miss Ada Royer, Miss Hannah Wissler, Mrs. Elva Fogelman and Mrs. Allen Stober.

Members of the program committee included Mrs William Stober, Mrs. John Edwards, Mrs. Earl Latshaw, Mrs. Elam Shelly, and Society president, Mrs. Harry Usner.

Farm Women 18 Hold Meeting

Mrs. William Shelton, 950 Rohrerstown Road, entertained Farm Women Society 18 at the home of her mother, Mrs John S. Habecker, Lancaster R1, Pa. Mrs. Willis Esbenshade, president, presided.

Mrs. John Henry Hess was in charge of devotions A contribution of $35 was given to the Child Development Center and a contribution of $5 was voted to the Migrant Workers picnic fund.

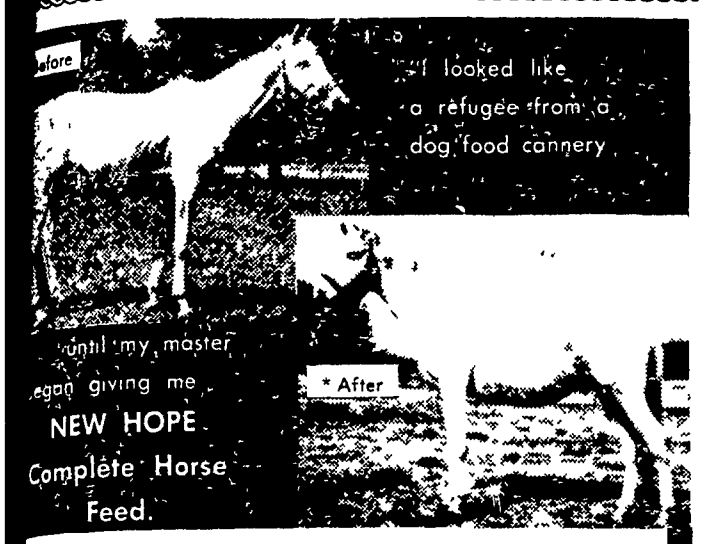
Society 18 will have the devotions at the Lancaster County Farm Women's Convention to be held on November 7, 1964 at the Solanco Area High School.

Mrs. Marie Smith was appointed to write a history of the society.

Mrs. John Henry Hess was named representative to attend the Lancaster County Farm Women's Board meeting and picnic to be held at Long Park on Tuesday, Aug 4.

The program featured flower arrangements by members of the society. The judges were Mrs. John N. Hess, Mrs. Chris H Shenk, Mrs Warren Weaver and Mrs Lester H. Kreider Prizes were awarded as follows: Dining room—Mrs. David Hess; coffee table—Mrs. Willis Esbenshade; hall table —Mrs. Kenneth S. Brubaker; kitchen—Mrs. Willis Esbenshade, pitcher — Mrs. Willis Esbenshade; miniature — Mrs. Christian Greider; cup and saucer—Mrs. Richard Hershey.

The next meeting will be held at the home of Mrs David Hess, Lancaster R6, on August 15, 1964, at 1 30 p m.



"Oats — ugh — I couldn't bear the sight of them — or hay either. Sometimes I could hardly catch my breath, and the least little trot made me cough 'til I thought I'd die.

"I had the heaves and I was miserable."

"Then my owner discovered New Hope Complete Horse Feed—no oats, nothing of any kind to stir up my allergies. My, how good it felt to really eat again, to be free from that terrible, hacking cough.

"If you're a victim of the heaves too, send your master as fast as he can go to get some Wayne New Hope Complete Horse Feed. Of course he has some other excellent horse feeds for horses that can still eat hay, but as for me, I'm sticking with Wayne New Hope Complete Horse Feed."

** Actual unretouched photos of a horse before and after being fed New Hope Complete Horse Feed.*

4-H Club News

LANDISVILLE-SALUNGA SEWING CLUB

Landisville-Salunga 4-H Sewing Club met Monday morning at Hempfield Senior High School home economics room. Committees were appointed for a club fashion show to be held Thursday, Aug. 13, at the Salunga pavilion at 7:30 p.m.

Members attended work sessions following the meeting The next meeting will be Monday, July 27, at 9 a.m. at the High School.

DONEGAL 4-H SEWING AND COOKING CLUB

Donegal 4-H Sewing and Cooking Club held a meeting recently in the Donegal Presbyterian Church. President Rebecca Kling presided at the meeting. Assistant song leader, Nancy Hoffman, led the club in two songs.

During the business meeting, Janis Bixler, chairman of the future activities committee, gave a report on the activities that are planned for the club. They are: swimming party, dogie roast and then sleeping out, and the mother and daughter tea.

The sewing show and tell was given by Rebecca Reinhold. She showed the different types of basteing stitches. The cooking show and tell was given by Linda Neideigh. She showed how to make playdough.

Kathy Ney and Glory Winters gave a health talk on the care of the teeth.

Two women from the extension office were introduced: Miss Warner and Miss Savidge.

After the business meeting, the girls worked on their projects.

The next meeting will be held on July 28 at 1:30 in the Donegal Presbyterian Church.

MANHEIM TWP. SEWING CLUB

The Manheim Township Sewing Club met on Tu July 21, at the home of Dale Landis, Lititz R3.

Mrs Landis is a profes cake decorator and demon ed to the club on diff cakes

Refreshments were serv ter the demonstration.

Next meeting will be Tuesday, July 28, at 1 the Manheim Township High School.

About 50 percent of th tal land area of the U States is used for pasture grazing.

Chas J. McComsey & Sons
Hickory Hill, Pa.

Mr. Dairyman:

Are you managing your herd for profit?

Managing for profit must begin with your dry cows and bred heifers.

Management for profit calls for feeding the dry cow and bred heifer to accomplish three things;

Build the unborn calf

Build the cow's reserve

Stimulate the cow's milk-producing system so that she may produce to her in-bred ability

You can not expect last years top proformer to repeat only because she has the potential.

She has to be fed for high production — and particularly when she is dry.

No other period in a cow's life has as great an influence on milk production as does the two month period just before she freshens.

Management for profit must also begin with feeding your dry cows PIONEER DRY & FRESH.

On PIONEER DRY & FRESH and the PIONEER Program your dry cows get the nutrients they need, and you can be sure that she will produce according to her capability.

Stop in soon or ask our servicemen about the PIONEER management for profit program, beginning with your dry cows.

There is profit in PIONEER.

PIONEER

Rules For Safe Tractor Driving

Eight rules for safe operation of farm tractors were listed today by State Agriculture Secretary Leland H. Bull "particularly for the benefit of the many young men and boys who are doing farm work this summer for the first time."

He offered these suggestions:

1. Drive slowly—for safety and for greater efficiency. Tractors are designed for power, not speed.
2. Drive cautiously. A hidden hump or ditch can flip the machine over or pitch the operator off.
3 Drive on public highways only when absolutely necessary, and then preferably when traffic is lightest.
4. Use extra caution on slopes. Avoid those that are too steep.
5 Climb steep grades in reverse to avoid flipping the machine over backward. Going down grade keep the machine in gear, but don't try to handle heavy loads.
6. Pull only from the drawbar. A load hitched to the axle or seat bracket can pull the tractor over backward.
7. When pulling really heavy loads, add front end weights to keep the tractor balanced.
8. If the tractor wheels stick in a ditch or deep mudhole get help Something must turn when power is applied. If the wheels can't, the rest of the tractor will.

Crop Summary

Crops Continue Good Growth

Hay crops and pastures continued to make good growth in most sections of the Commonwealth, despite some hot, dry weather, according to the Pennsylvania Crop Reporting Service.

Legumes and grasses for hay and ensilage were generally developing satisfactorily, and new alfalfa growth started well following second cutting. Pastures in most areas are providing normal grazing for this time of year

The exception is in the northeastern corner of the state where seven counties have been designated as drought disaster areas Virtually all crop development has been retarded there by a prolonged dry spell

Elsewhere in the state, early June rains provided adequate soil moisture to sustain crop growth Corn has developed well, particularly in central and southern counties where some stands are reported seven feet tall Wheat continues to produce good yields as harvesting of small grains continues at a normal pace

Increasing quantities of early sweet corn and tomatoes, and the season's first early white peaches are reaching the fresh market

The Crop Reporting Service pointed out that only three of 18 weather stations in the state have recorded adequate rainfall since April 1 They are Pittsburgh with 3 33 inches above normal, Erie, 1 36 inches above, and Arendtsville with a surplus of 95 of an inch Rainfall deficiencies at the other 15 stations range from nine-tenths of an inch at Altoona to 4 78 inches at Montrose in Susquehanna County Susquehanna is one of the seven counties designated as drought disaster areas.

Spring Pig Crop Is Smallest Since 1935

HARRISBURG — Pennsylvania had a spring 1964 pig crop of 338,000 This was the smallest since the 1935 crop of 310,000, according to the Pennsylvania Crop Reporting Service It was 20 per cent smaller than the 1963 spring crop of 425,000, and 19 per cent below the 1958 62 average of 417,000

A total of 47,000 sows were farrowed This compared with 59,000 in the spring of 1963 and the five year average of 58 000

Pigs saved per litter was 7 2 —the same as a year earlier and average

Intended fall farrowings of 42,000 sows and gilts, if carried out, would be the smallest of record

Sow farrowings for the spring pig crop by months were December, 5,000, January 6,000, February, 9,000, March, 12,000, April, 9,000, and May, 6,000

PENN MANOR MEETS

The Penn Manor Clashing Thimbles met on July 22 at 9 00 a m at Penn Manor Junior High School for a combined work and business meeting The members decided to have a party Their parents will be invited and members will wear the garments they have made

Next meeting will be held on July 29 at the Junior High School.
